For more information, please contact Customer Service at (334)371-2308 or (334)371-2309

Ozark Materials, LLC manufactures and supplies pre-cut lines, legends, and symbols for easy installation with high performance and long service life. The material is manufactured to consistent quality standards in beaded, non-beaded, and high skid-resistance varieties in thicknesses of 90 mils or 125 mils. Our preformed thermoplastic markings provide the longevity of thermoplastic with an ease of application and clean edges. Material is normally provided with surface beads and antiskid particles applied. The material also contains glass beads throughout which allows glass beads to surface as the marking wears maintaining the retroreflective nature of the material for the duration of its service life.

Product Information

Ozark Materials, LLC's Preformed Thermoplastic is supplied as pre-cut legends, symbols, or flats which are ready to be heat applied. Preformed markings may be used as lane delineators, stop bars, legends, or symbols. These markings are manufactured to meet AASHTO M249 standards or to meet specific state specifications. Preformed markings are to be applied to surfaces free of debris, dirt, moisture, grease or other materials that will inhibit bond to the road marking surface. Markings should be allowed to cool sufficiently before releasing to traffic to prevent dirt pickup, deformation, and tracking. See complete application instructions that are supplied with the product before attempting to install. Material may be stored for up to two years in a climate and weather-controlled environment.

Warranty Information

Ozark Materials, LLC warrants our preformed thermoplastic pavement marking product, unless otherwise specified, to the original buyer against material defects in the manufacture of the product for a period of one year from the date of delivery of the goods. Where it appears to the Seller's satisfaction that the defect was present at the time of delivery of the goods, Seller's sole obligation under this warranty is, at its option, to repair the defective product or to provide replacement material. This warranty does not apply to items that have been stored or installed improperly, altered or subjected to misuse or negligence. Should a product prove to be defective or unsuitable in anyway, it is understood that the Seller's limit of liability for all damages, including but not limited to, direct, incidental, or consequential injury, loss or damage arising out of the use of or the inability to use the product, shall be to repair the defective product or to provide an equivalent quantity of replacement product. Ozark Materials, LLC produces preformed thermoplastic designed for use on parking lots, roadways, highways, airports, and any other surfaces generally used for vehicle transportation purposes. Before using any product from the Manufacturer and Seller, the Buyer shall determine the suitability of the product for the intended use and the Buyer assumes all risk and liability whatsoever in connection therewith.

Ozark Materials, LLC produces preformed thermoplastic designed for use on parking lots, roadways, highways, airports, and any other surfaces generally used for vehicle transportation purposes.

Preform material may be applied without preheating the road surface, with or without the use of primer.

Additional designs and colors are available.

For pricing and/or information for unlisted items, please call Customer Service at (334)371-2308 or (334)371-2309.

Freight is PPD & Add for all orders less than \$5,000.

Freight is included for all orders exceeding \$5,000.
